

## 2017 Federal Energy and Water Management Awards - Nomination Quick Reference

centers that significantly improved energy and operational efficiency; or "Contracting" for efforts to award energy performance contracts and/or enhance procurement practices (may be individuals or teams).  Select "Career Exceptional Service" to nominate individuals directly responsible for creating and instituting innovative and effective programs, projects, or technologies over their careers (e.g. 10 or more years).  Eligibility  For Project, Lab and Data Center, and Contracting categories, effort(s) must have been completed during FY 2016. For Projects, partial-year FY 2016 savings are eligible; FY 2015 projects/savings are not eligible. If the effort was not complete by September 30, 2016, you must defer the nomination until next year. Program and Career Exceptional Service categories may consider past efforts, but should focus on FY 2016 results.  An individual nominee in any category must be a federal employee or contractor operator of a federal facility. Any team nomination (small group or organization of up to 5 nominees) must highlight a federal effort; at least one nominee must be a federal employee or contractor operator of a federal facility.  Before developing a nomination, confirm that the individual/team has not previously won a Federal Energy and Water Management Award for the same or similar efforts at the same location.  Data and Narrative Requirements  Prior to writing the narrative consider what transferable best practice(s) were encompassed by the nomination/nominee(s), if any new or underutilized technologies were implemented, and what else is particularly unique or innovative about the nomination that makes it exemplary and deserving of recognition.  Prepare a separate narrative providing all required data and information outlined in Section 6 of the criteria and guidelines, based on the nomination category selected. New in 2017, narratives are required to be organized by the applicable criteria to ensure all required/adequate information is included, or will be declined.  For Project, La	Category Selection
Eligibility  For Project, Lab and Data Center, and Contracting categories, effort(s) <i>must have been completed during FY 2016</i> . For Projects, partial-year FY 2016 savings <b>are</b> eligible; FY 2015 projects/savings <b>are</b> not eligible. If the effort was not complete by September 30, 2016, you must defer the nomination until next year. Program and Career Exceptional Service categories may consider past efforts, but should focus on FY 2016 results.  An individual nominee in any category must be a federal employee or contractor operator of a federal facility.
